Australian Parliament
ICT Strategic Plan
2013-2018
Overview:

• Background to the Plan

• Development and Governance

• Key Themes

• Priorities
Parliament of Australia
ICT Strategic Plan
2013 – 2018
Summary
Prior to 2013:

- Multiple agencies with a role in Parliamentary ICT
- Roles split according to traditional ICT services
- Little ability to adapt to changing needs and environment
- Inflexible allocation system for equipment restricting uptake of new technologies
- Limited consultation with Parliamentarians
In 2013:

- All Parliamentary ICT brought under one agency
- New governance arrangements and direct user input
  - Advisory Committee (PICTAB)
  - User Groups
- Strategic Plan developed to guide services and future directions
- Four key themes
Key themes:

• Supporting parliamentarians - *anywhere and anytime on a range of devices*

• Supporting the operation of Parliament and its committees

• Making it easier for the public to engage with parliamentarians and the parliament

• A capable, respected and forward looking ICT provider
Sample Priorities: Mobile Applications

- Art Collection iPad Application
- Located Content
- Parlview iPad Application
New Equipment Choices:
